Stance: Customer objects to the Planning Application

Comment Reasons:

Comment: I object to the building of the new school at Whitegates Park for the following reasons:

1) The loss of established wildlife habitat 2) The loss of an easy accessible, peaceful area for my mental well being 3) The increase in congestion on our already busy road, that will inevitably be used for parents dropping off their kids 4) The long term safety concerns for pupils and staff, given the school is being built on a known contaminated site that couldn't guarantee absolute safety for all over a period of years. 5) The absolutely frightening costs now estimated for the build of the school that appear to be increasing on a daily basis, which is going to burden the whole of East Dunbartonshire with debt for many years, that we will be expected to pay for with an increase in council tax with little or nothing to show for that increase. It's especially worrying, especially when similarly sized new schools have recently been built at literally half the estimated cost of the new Lenzie Academy build.
