Comment Reasons:

Comment: Good Afternoon,

I would like to object to the TP/ED/26/0104 on the basis of unreasonable cost increases and on environmental concerns not being suitably mitigated.

The costs are sitting vastly higher than other similar school builds in the area and i don't feel suitable work has been carried out to ensure that the council have found the best site. Building on the current site seems completely logical and brings significant cost savings.

Further to this the amount of students out with catchment doesn't seem reasonable and i like to see this reviewed and discussed. This must impact size and therefore overall project costs.

Additionally the environmental impact will be significant. There won't be a new park built at Myrtle as proposed. Why the council feel they need to mislead the public in this seems disingenuous at best and criminal at worst. Why have environmental policy when you are going to disregard this in decision making?

More than anything the loss of park space for the local children is disappointing. I take my grand-daughter to the park often to cycle and losing this opportunity is heart-breaking. Again why have policy to protect the rights of children then dismiss it when its most needed.

I hope this decision is reconsidered and i reiterate that i strongly object.

Kind Regards,
