Stance: Customer made comments in support of the Planning Application

Comment Reasons:

Comment: I am in favour of the development of a new building for Lenzie Academy at the Whitegates Park site. Lenzie is in desperate need of a new school building with serious issues with the current building in terms of accessibility and its general ability to provide a facility that enables a modern secondary education in the 2020's. The development at Whitegates Park is the fastest route to providing this. Any tandem build at the existing Myrtle Avenue site would have serious implications for current and future pupils who would have to be educated on a building site for up to four years. This would leave them with no outside space for the majority of their time at Lenzie Academy and is fundamentally unfair for a generation of school pupils who already face significant challenges having had the formative years of their education impacted by a pandemic.
