

# Comments for Planning Application TP/ED/26/0104

## Application Summary

Application Number: TP/ED/26/0104

Address: Whitegates Park Middlemuir Road Lenzie East Dunbartonshire

Proposal: Erection of a secondary school including road access, landscaping, car parking, sports pitches, recreational areas and associated development.

Case Officer: Fraser McNair

## Comment Details

Commenter Type: Member of Public

Stance: Customer objects to the Planning Application

Comment Reasons:

Comment: I have real concerns over a number of areas which councillors and the local MP and MSP have not been able to provide comfort around. These areas are set out below

Contamination risk

Environmental impact and loss of habitat

Cost of project

Overall I am of strong belief that much better, lower cost and safer alternatives are available for the build location. I urge that a proper consultation is undertaken and that all councillors, the local MP and MSP are personally willing to provide comfort that the areas of concern are fully addressed. To the extent these key parties cannot personally stand behind the proposal it should not proceed.

Even if these parties are willing to stand behind the proposal it is imperative assurances are provided around the contamination risk of the site. There should be no risk to construction workers, local neighborhoods during or after the build and importantly the school children or teachers.

In conclusion I strongly object to the build, I think costs will spiral, contamination risk is too high and loss of habitat is not in line with environmental goals. New builds should take place on brown sites and not green sites!
