Case Officer: Fraser McNair

Comment Details

Commenter Type: Member of Public

Stance: Customer objects to the Planning Application

Comment Reasons:

Comment: The green spaces around our beautiful town are slowly disappearing. They home wildlife, act as dog walking areas, serve as local clubs areas and family places with young children. It promotes health and wellbeing, promotes wildlife.

These beautiful green areas are, and must be protected at all costs. Once these areas disappear, they are gone for ever, to the detriment of everyone in the local community and future families, future projects and clubs.

There is already a site for the school. Government money and funding shouldn't be used to destroy green areas.

I fully object to this school being built and the destruction of green areas.
