I am submitting this statement on behalf of my son to express his objection to the proposed removal of the park to build a new school. The park plays a significant role in his daily life and wellbeing. It is where he enjoys walking, listening to birds, watching deer and other wildlife, and experiencing the calmness that the natural environment provides. It is also one of the few safe and accessible places where he can ride his trike.

For him, this park is not simply an open space; it is a meaningful part of his routine, his connection to nature, and a source of comfort and joy. Removing it would take away a place that supports his physical activity, emotional regulation, and sense of peace.

We ask that his experience and needs be taken into account as part of this consultation, and that alternatives be explored which would allow the school development to proceed without the loss of this valued green space.
