Hi

I would like to formally object to the building of Lenzie Academy at Whitegates Park. It will be a huge loss to the community. I use this park several Times a week whether it's taking my grandchildren out picking wild brambles, insect collecting, bird spottin or just walking. Even just for running around the pitches. I see people on bikes, dog walkers and people jogging. It's suitable for all ages. At night I've seen hedgehogs foxes and bats. It's disgusting that their habitat is going to be destroyed. There are less and less green spaces for wildlife. It's a safe space for walking for children avoiding main roads to get to the town centre.

Yours sincerely
