Subject: Planning objection

Dear sir/madam

I tired to register an account to lodge my objection to a planning application but was unable to do so. There was an issue with the password field. Please can you count this as an objection towards the proposals for the new lenzie secondary school on whitegates park ?

[TP/ED/26/0104](#)

I was walking along the path at whitegates today with my two sons today, one in a pram and one on a little bike. We don't have a big garden and we use this space a lot. I'll be really sad to lose it. It's a much loved green space for the community that I use with my children for walking, playing and learning. We see all sorts of interesting animals and creatures there. I object to the park, and particularly all the older trees, being destroyed to build a school. You can't replace mature trees with new ones, it's not the same. The play park beside the leisure centre is not enclosed and open to the road. It's a completely different experience going there with children compared to the enclosed whitegates park.

I am seriously concerned about the traffic that will use middlemuir and the surrounding streets as a result of a new school being built there too.

I am not in support of the cost of this project either. I am also deeply skeptical that the feasibility study was carried out by the contractor.

I am in support of a new school being built on the existing site. As has been done countless times across the country.
