Comment Reasons:

Comment: Quality of life matters. It's something that EDC should value as precious for its residents and something to be protected and respected.

Whitegates park improves the quality of life of local residents. There are always people enjoying the space and taking in the abundant benefits to both physical and mental health.

This is an important space where wildlife and nature flourish and it is our responsibility to nurture and care for this.

The proposed irreversible destruction of this space, when there seem to be suitable and reasonable alternatives is reckless, harmful and disregards residents' rights to the quality of life that this green space brings.

As a society we cannot keep destroying these natural habitats and still have a clear conscience.
